Comparison table

Features	ESBO Light	ESBO
Single room		
Multiple rooms		
Rectangular zone geometry		
Arbitrary zone geometry		
Zone multiplier		
Whole-year simulation		
Daylight calculation with Radiance™ (limited, full features in Daylight extension)		
Glazing calculation EN ISO 52022-3, EN 410 and ISO 15099		
Batch simulations		
Case comparing reports		
Surrounding shading objects		
Balconies and other fixed shades on the facade		
3D building visualization		
Input thermal bridges		
Input ground heat transfer		
Input system losses		
Borehole models		
Solar thermal collectors		
PV collectors		
Wind generator		
Window opening		
Painting 3d model with constructions, surface properties and window types		
Support via forum		
Available as installation		
Available as cloud service		
Extensions		
BIM import (/en/esbo/extensions/bim-import)		note[1]
Daylight (/en/esbo/extensions/daylight)		note[1]
VDI 2078 (/en/esbo/extensions/vdi-2078)		note[1]

[1] Extension can be purchased separately
